Likewise the Letter above extracted from Mr Brice Fletcher at Gingerah whereby it appears Serdar Abdul Hashim instead of listening to Terms of Accommodation has accused his Intentions of persisting in his Preparations to War Fort, which we cannot possibly permit of his getting Salutpore of and as in case of an Attack would effectually obstruct Goods coming down the Ganges Country and thereby be deprived of the means of ever having Terms of Accomodating his Debt to our Honble Masters which in the Interim it will enable Captain Baldwin to maintain his Army and Hugly Garrison we therefore Resolve to keep a Force at Gingerah &c

Sir

We informed you in our Letter of the 24th January last that we had determined to send a Detachment of Troops under the Command of Captain Stevenson to the Assistance of the Rajah of Tanjore, and that the Expedition was ordered to proceed by Land to Calicut, from whence it was to be conveyed by Sea to the Coast of Coromandel. But upon further Consideration of the Subject we have since judged it more eligible that the Detachment should proceed by Sea from Bombay to Tanjore, and accordingly Captain Stevenson has received Instructions to that purpose. We have also given Orders for the Detachment to be augmented to the Number of 1200 Men, and have appointed Major Abingdon to the Command of the Troops, which will consist of the Flank Companies of the Bombay Battalions, and the Grenadiers of the Sepoy Battalions, with a Proportion of Artillery. Directions to the Agent to draw Bills on the Company for the Amount of the Bonds

Ordered that all Officers of Artillery for the Provision of the Investments and to discharge the Dutch Bonds the Cloth and Factors annual Accounts be paid them accordingly made out, they shall be Entertained in the Service for another Year in which case a Gratuity is to be at the option of the Board to accept Payment or not.

Examination of Accounts relating to Artillery & Fortification

The Deficiencies which have arisen in the Stores under the charge of the Artillery Department of Artillery appears to me in a very extraordinary Light and I think Mr Hood the late Paymaster should be obliged to make good the whole that he cannot make appear to have been rendered in the Honble Company's Books or accounted for by unavoidable Accidents The Chief Gunner Engineer must therefore be ordered to make a very strict enquiry how these deficiencies have arisen and report the same to us.

Read a Letter from the Garden House Committee accompanying their Books as usual also a Statement of Materials wanted for the ensuing Year and Proposals for contracting for Bricks at eighteen Rupees per Thousand for one Year and for twenty Rupees per Thousand for three Years, the latter being deemed a very reasonable Proposition.

Garden House Committee to be informed

Ordered that the Proposals be accepted as the most advantageous and the Committee be desired to contract accordingly and to keep the Garden House in the best Order they can.

Bricks to be purchased from the Contractors

Ordered that Mr Williams do inspect the Repairs of the Bastion next the Bunder and Report the Expence attending the same to Morrow.

Advices read.

Read the Letters above entred from the Agent at Bejapore, the President at Bustora, the Factors at Tellicherry, and the Resident at Anjar, on all which the following Remarks are made and Resolutions taken Viz.t

Agent at Bejapore to be directed to the Works and Expences.

We approve of the measures the Agent at Bejapore has pursued in respect to the Woollen Contracts at that Place, and he must be very strictly enjoined to use his utmost endeavours to assure of the Remains thereof as soon as possible, taking a Bond in the Custom House from the Contractor, Lopo Shanda, obliging him duly to make good every deficiency which may arise thereon, but should there be sufficient we think it may finally be ordered to us as the one Moiety thereof belongs to the Company.

Tellicherry Country Island and fort to be allowed.

We think it very proper there should be a Laundry House at Tellicherry for the Chief as there to reside, occasionally when their Health may require it, and it is therefore agreed to furnish the Chief and Factors of Tellicherry with the Houses they now possess, and Directions for that Purpose, and likewise between the utmost Limits of the aforesaid.

Factors to be allowed for Pepper.

We approve of the Factors having put a Check on Mercedsom Pepper Weight, which they must be directed to take Effect from and with all until the Debt to the Bombay Company is fully cleared.

We readily do not think it will be necessary to grant the Petitioners Desire to have Liberty to set up their Looms, and Engines, on Pegues of Stone covering at higher Price, and for the Chief and Factors must be directed to treat them as well as they can for the Interest they will bring.

The Resident at Anjar having represented that Timber and Boat wanted to be kept ready for the Service of the Settlement, it is agreed to be got in readiness accordingly.

Resolved that a Copy of Hayder Cawns Letter to Mr Horsey be forwarded to the President and Council at Fort St George who must at the same time be

Fort St. George Letter of 27th Sept.

The first was a Triplicate of the original non Acceptance of which has yet reached us bearing date the 18th September wherein they acknowledge receipt of our Letter of the 27th September and that agreeable to what they had observed from our Letter of the 8th of the same month the Madrass Council joining against Meyder Aly and the Marattas should that Power attempt any Incursion upon the Carnatic or any measure tending to the Subversion of the Government established by the Treaty concluded with the Subahdar and that they would not only join him to oppose the Measure but would also acquaint him with the Breach they looked upon as a favourable Opportunity to check the ambitious Views of a man from whose Existence commenced Conquest Rapine and Power the Peace of the Carnatic to recover what he had taken from them and to make them respecting Engagements with the Power whom they had determined for that purpose Main Spring of this being little Sensible of our Alliance and Friendship and nothing but preserving the Carnatic could bring him to accede this measure they considered as not calculated to preserve the Tranquility of the Carnatic and might enable us to procure Augmentations and Privileges for our Settlements on the Malabar Coast which would be very much for the Interest of the Honble Company it might likewise they remarked be a means of facilitating the Execution of the Bengal Plan whenever it might be judged advisable to undertake it and they should not fail advising us should they be obliged to have recourse any measure against Meyder Aly &c.

Accounts of their Proceedings since Intelligence last Read the Ships of Warr were
expected on their Letter of the 28th March that the Enemy were not
Prosecute their Expedition with Vigour and that he never made up
Matters with Hyder Ally was but he will pursue Every measure in his
power to Weaken him by keeping from 30 Lacks of Pagodas
He has over his Country, and till Marches with a considerable
Army of Horse to encounter his Conquests That Mr. Sullivan after having
spent a great deal of time to no purpose was greatly harrassed our
Troops Marched on his Determinations, and so Earnestly
desired Hyder Ally any Information of his Designs that they have
by Vizagapatam otherwise from his Army their Europeans were unwilling
with a great Number to prevent the Enemy of so long a Coast, having
with them Four Battalions of Sepoys and a Field Train of six Pieces,
and as it was natural for them to expect the whole weight of Hyder Ally
his Army on the Side of his Country, they have, Imagined
it necessary, for their Security as well as to oppose the Marattas who had
Attacked and plundered Adoni ready to get possession of some of the
principal Passes from up into the Carnatick, they have therefore left
their Battalions of some of them, but that others were so difficult of
Access that they could only be reduced by a Blockade They Enclosed the
Minutes of a Letter received some Days before by Hyder Ally's
Vaqueel from his Master with the Answer he had been ordered to
return By which we could perceive they had left room and opening
for an Accommodation which they should be glad to be brought
about consistent with their Honour and the Safety of the Carnatick
as they were well aware that a War with them would involve us in
Difficulties, and which therefore nothing but the absolute Safety of
their Possessions should induce them to [illegible] They informed us that
Mr Sullivan notwithstanding all their Remonstrances had settled
with Hyder Ally for 22 Lacks of Pagodas, after which he had no
Pretence to Oppose remaining here Accordingly Mr Sullivan
has got Bills, amounting to £200 which he represented might procure the
Same, but that Instead of returning as he had promised he had
gone from Seringapatam and Proceeded on to Poonah

Conduct with the general Interest of her Dominions to your Hyper Ally, and to whom the Circumstances had obliged them to extend all the Force in their Power; and to Station them on the Frontiers to oppose any Attempts they might make to disturb the Country, but that of any Encouragement could be given of the Actions of those People on the Frontiers of their Power, they should have conducted that the Dutch would have endeavoured to avoid a Rupture with them, and rely on their Friendship as the most certain means of establishing and maintaining the Peace by, but on Sight of all their Intercourse & Letters with them had but just then been received, that he in conjunction with their Ally were absolutely bent against the Carnatick, and they were determined by every possible means to oppose them, and wished no Time but the Time they should receive their Answer of having taken this Step. They acquainted us their President had received a Letter from the King of Tanjore to much the same Purport as the Letter from Mamoolee by us, to which they shortly intended to reply that the Dewan was aware of maintaining a friendly Correspondence with him, but that the Situation of their Affairs would not admit their undertaking such distant Operations; and answered us that the Chief and Factors at Anjengo had informed them the King of Travancore had refused to grant them the Priviledges he had formerly granted under Pretence that the Calicut Districts had not been restored to him, at which they expressed their Surprize as the Rajah on a Letter to their President had intimated his Satisfaction at the Treaty with the Nabob & relinquished his Pretensions to those Districts and engaged to fulfil his Promises to the Gentlemen of Anjengo, regarding which they have wrote him a Letter which they hoped would have the desired Effect.

The Shirley came down the 28th July and sailed to rejoin the Admiral there at the Egmont for Bengal the 25th of that Month which had left Tellicherry the 26th June from whence the Calcutta had sailed three weeks before, on that they imagined she had intended directly to Bengal, that by a French Letter which arrived a few days before at Tellicherry they had been informed the Dutchman Fleet with that Copper which that had was coming away, mentioned that they had 4 Days under Convoy to Bengal the Day after and left

Conduct with the greatest Respect of his Sovereign to your Hon.ble Table, and
to the Council had Reason then to expect all the Success in their Power
and Intention there on the Frontiers to oppose any Attempts that might
make to disturb the Country, but that of any Assistance could be
of the Nature of these People on the Frontiers of Guzerat
they should have concluded that the Nabob
means to avoid a Rupture with them
as the most certain means of establishing
by, but in spite of all their Endeavours
had but just then been advised that
they were absolutely bent against the Government
using by every possible means to oppose them
but in the End they should make them repent of
Step. They acquainted us their Resolutions had
the King of Poonah to march the same Purport as the
transmitted by us, to which they shortly
Desire was sincere of maintaining a friendly
him, but that the situation of their Affairs
their undertaking such distant Operations; and
Chief and Factors at Dongonge had informed them the
Government had refused to grant them the Privileges
formerly promised under Pretence that the Cutcha
not been restored to him, at which they expressed their
as the Rajah in a Letter to their President had
Factors at the Treaty with the Nabob relinquishing
to those Districts and engaging to fulfil his Promises
Gentlemen of Dongonge, regarding which they had
a Letter which they hoped would have the desired Effect.

The Ships Ordered to Bengal

The Ships Ordered, have since the 28th July and serve to advise the
Arrival there of the Cygnet for Bengal the 15th of that Month
which had left Tellicherry the 28th June from whence the Calm the
weather there, had detained so that they imagined she had
directly to Bengal. That by a French Ship which arrived at
Calicut at Tellicherry they had been informed the Pondicherry Fleet
and the Cafre when that the was coming every

Letter from Mr Bentley desiring an additional Passport for the Marquis of Rockingham

Honble Gentlemen

The Commander of the Marquis of Rockingham has represented to me, as agent for the owners of this Vessel, the great distress she met with in the course of her outward bound passage by having fallen in with the Honble Company's Ship Duke of Grafton at St Jago, on which Ship after the Engagement we have had, she must inevitably have put into Port for the Purpose of procuring assistance in her Sails, which by the Engagement, naturally fell down and became entirely useless, but as it was impossible to refit the Ship at that Place, the only assistance I could procure was from the Company's Ship Lord Camden, under the Command of Capt Hamilton as Commodore, who accompanied the Marquis of Rockingham with thirty men during the whole Passage. This however occasioned such a Loss of time that instead of reaching this Port
